

Testimonial

My name is Nathalie B., I am 40 years old and I have two children.

Professionally, I am an independant shopkeeper.

Stressful life and worries have caused a decrease in my libido. This situation was not easy to manage.

I am followed by a gynaecologist, but as I am not too favourable to the hormonal treatments, I did not take the prescribed treatment.

When I was told about a bracelet (ACUFIRST) to improve libido, I've been seduced and I have agreed to try it without much beliefs.

After a few weeks of daily use, I noticed an increase of my desire. Before, the idea of having a relation disliked me and I am now much more woman seeking.

Everything is not perfect but the use of the bracelet allows me to lead a normal life much more balanced.

I confess being pleasantly surprised at the results obtained with the bracelet.

Since then, I gladly use the bracelet and often involve depending.

I give my agreement for the use of my testimony showing the effectiveness of the bracelet.
